Name of Applicant

Title: _____ First Name: _____ Last Name: _____

Contact Number: _____ Mobile Number: _____

Company Name: _____ ABN: _____

2. Site Details

Site Address: _____ NMI: _____

What is the installed or name-plate generating capacity of the generator: _____

Have you entered into an agreement with your distribution network service provider: Yes / No

Is this your principal place of residence: Yes / No

3. Have you included the following

- Completed all relevant sections of this application form
- Enclosed a completed Electrical Work Request
- Enclosed a copy of the Certificate of Electrical Safety
- Provided to the network your completed 'Network Agreement', which covers your right to export electricity into your local distributor's network

Please note: If you have not provided this to your distributor they may not carry out the installation

By submitting this application you acknowledge the following matters

- You will be required to pay an amount in relation to the installation of the necessary meter. The amount of the charge will depend on your local distributor, but in most cases if you have an existing meter and give the distributor clear access to that meter, these installation charges will be no more than \$800 plus GST. We can confirm the amount you will need to pay for the meter installation at your Site Address upon request.
- It is your responsibility to ensure that any electrical work that is needed to accommodate your new tariff is carried out at the appropriate time.
- It is your responsibility to ensure that your new metering configuration complies with applicable Energy Laws and that this agreement will not commence unless and until you have complied with the applicable Energy Laws.
- That a new agreement will only commence when we have assessed your application and confirmed in writing with you that you are eligible for your new tariff.
- If you have completed this form without supplying us with an Australian Business Number this constitutes a representation that the electricity that you sell or supply to us is not sold or supplied to us in the course of your business and is of a wholly private and domestic nature.
- Prior to submitting this application you have read a copy of the relevant terms and conditions enclosed (copies also available on our website) and that you understand and accept those terms and conditions.
- Enclosed a copy of the Certificate of Electrical Safety and the Electrical Work Request.
- Agree that you are aware of and comply with all applicable and are provisions of the Distribution Code.
- By switching to a Premium Feed-In Tariff you may permanently lose any entitlement to take advantage of particular tariffs such as: controlled load, dedicated circuit (e.g. hot water and slab heating) and climate saver tariffs. This decision will be made entirely at the discretion of your local distributor.
- By switching to a Premium Feed-In Tariff you may be moved to a Time of Use tariff. This decision will be made entirely at the discretion of your local distributor. Once this occurs you will no longer be able to take advantage of other types of tariffs.
- You may no longer be entitled to certain subsidies and concessions as a result of your switch to a Premium Feed-In Tariff.
- The solar cost depending on the customers network may be up to \$800 + GST.
- That if your Premium Feed-In-Tariff application is not successful that you may be eligible for a General Feed-In-Tariff or a Transitional Feed-In-Tariff.
